

NEVER LETTING
a machine
STOP

IS OUR MISSION!

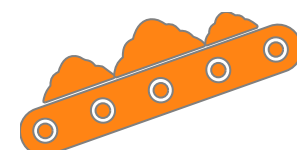

WHO WE ARE

We are Multibelt, a Brazilian manufacturer with over 38 years of experience in solutions for agribusiness and industry.

Our mission is to connect the field to the future, offering high-performance and reliable products, developed for the real-world conditions of the Brazilian producer.

OUR HISTORY

Multibelt began its operations as an importer and distributor of industrial belts, expanding its reach through resellers across Brazil.

Expanded its portfolio with PVC and PU belts, including solutions for conveying and elevating sugar, and food applications.

Began the domestic production of the first Draper Belts, consolidating and strengthening the brand in the agricultural market.

Multibelt opened its new headquarters in Ibiporã, expanding production and manufacturing space.

Expansion of operations throughout Brazil with the establishment of the Arapongas, Goiânia, and Várzea Grande units.

AGGRO®

Expansion of the silo solutions portfolio with the launch of the Aggrotubo, Aggroveda, and Aggroeleva lines.

 **GTS**[®]

Higher number of cleats, continuous and uniform feeding

Fiberglass cleats, belts with greater stability.

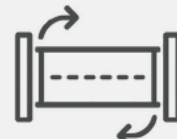

Reinforced splices, selected for optimal performance.

Reinforced traction zone, ensuring greater grip on the rollers.

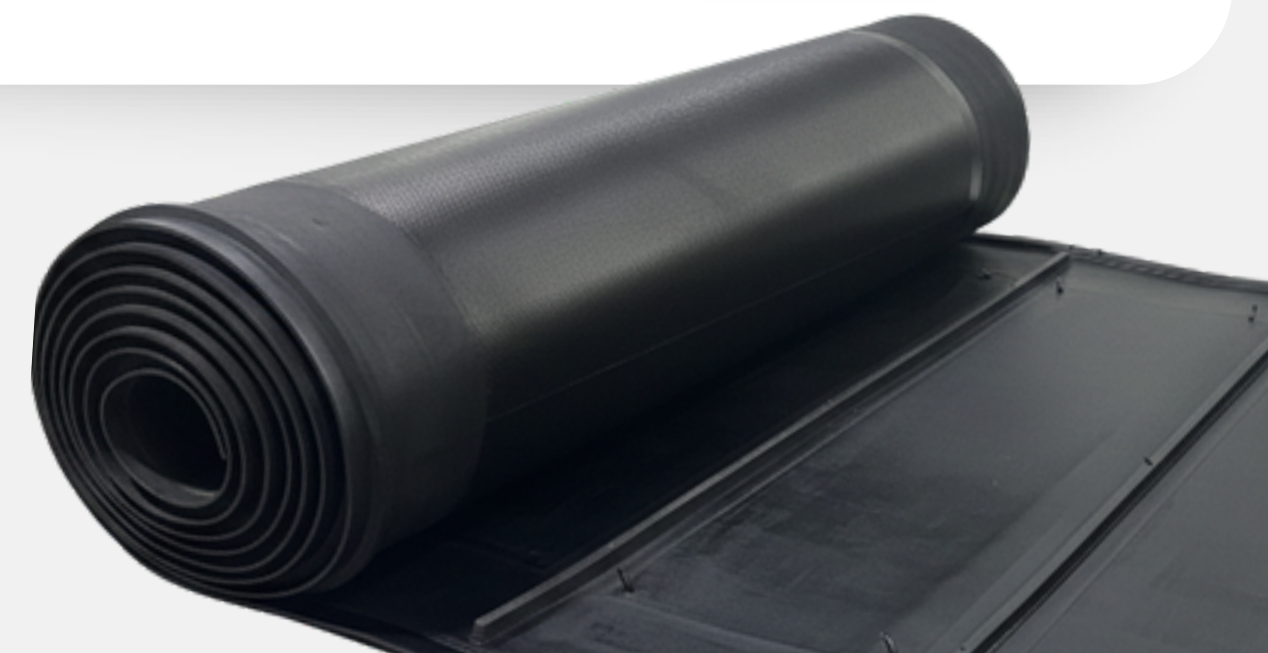

Optimal flexibility, adapting with the header for ground contouring.

Side models with 2 guides, allowing the belt to be reversed for greater durability.

Robust structure, same rubber used in agricultural tires.

THE MULTIBELT ADVANTAGE

**Reduced
operational
costs**

**Increased productivity
and maximum machine
uptime**

**Fast and local
technical
support**

**Reduced maintenance
and downtime**

**More than just products, we deliver
partnership, support, and solutions
aligned with the customer's reality.**

Since 1988, we have been developing high-performance solutions in belts, conveyors, and components that ensure productivity, safety, and continuity for agribusiness, industry,
